

SENIOR ESTIMATOR

Robson is one of the leading civil contractors in New South Wales. We are privately owned, with the financial strength and self-performing capability to deliver projects in the mining, roads, rail, commercial and industrial sectors.

We currently have a vacancy for an experienced Senior Estimator to work in our Beresfield office. This position is critical to the success of the Robson Business Development function. Keeping abreast of industry developments and having a broad understanding of methods, productivity rates, costs and margins is an essential requirement of the role. Also, developing a partnership with the Construction Division team will ensure that project objectives can be, and are delivered.

Key Responsibilities:

- Maintain productive relationships with project team, subcontractors, consultants and the community.
- Plan and lead cost estimates for medium to large-sized projects.
- Prepare cost estimates and technical proposals for tender submissions within the scope of appropriate drawings, specifications, quantities and cost data.
- Review tender documentations issued by client and derive a thorough understanding of client's requirements.
- Develop quantities from design documentation.
- Develop or assist others to develop project delivery methodology plans.
- Develop resource schedules and preliminary tender programs.
- Source or assist others to source specific project cost quotes.
- Maintain cost data bases.
- Assist Project Supervisors/Managers to plan and source all related project information.
- Liaise with peers, clients and other third parties in relation to developing estimates.
- Review contracts and liaise with legal advisers to ensure that conditions are appropriate.
- Complete detailed project risk assessments and contingency analyses.
- Ensure that a consistent approach is applied to estimating tasks using company standard software.
- Provide input into the monthly reporting on all key activities and issues.
- Assist marketing efforts in the acquisition of new projects including proposal documentation and estimates of manning, cost and time requirements.
- Attend site visits as required to gain a thorough understanding of local conditions.

Qualifications:

- A tertiary qualification in Engineering, Project Management or a related discipline.
- 5 years civil construction estimating, preferably with earthmoving, rail and structures experience.

Robson is an equal opportunity employer.

An attractive salary package will be offered commensurate with experience.
